GROSSE ISLE SCHOOL COMMUNITY REPORT JUNE 2014

Our Mission Statement

We at Grosse Isle School will foster a safe environment that encourages life-long learning, respect, and appreciation for all in order to prepare students to reach their full potential and to become productive members of society.

School Profile

- 32 middle year students in Grades 5-8
- .10 resource teacher
- .10 guidance counsellor
- .08 life skills (shops/home ec. at Warren Collegiate)
- .50 Administration
- 2.97 classroom teachers
- 2 - 3 hour educational assistants
- 1 - 3 hour secretary
- 1 - 3 hour library clerk
- 1 part-time custodian
- 1 hour lunch supervision

School Priorities 2013-2014

1. Implement a variety of assessment practices
2. Increase positive/caring behaviours

The above priorities were developed by school staff in accordance with the Interlake School Division's Strategic Plan. From these priorities the staff developed plans of action with expected outcomes and activities. The following are activities that were implemented to reach our objectives.

Implement a variety of assessment practices:

- Throughout the year, teachers have had conversations with their students about assessment for, as and of learning. The students are aware of the differences and teachers are using more assessment for learning activities in their classrooms.
- Teachers are having conversations with their students about learning goals and are starting to make them visual in their classroom so that students know where they are going and what they are expected to learn.
- Teachers are involving the students in co-constructing success criteria
- Teachers and peers are working on giving descriptive feedback as it relates to the success criteria set.
- Teachers are using self and peer-assessments in order for students to internalize their learning and monitor their progress.

Increase positive/caring behaviours:

- We teamed up with Rosser School twice this year and had a Community Building Day and a Field Day, where our grade 5 & 6 students were the team leaders and our grade 7 and & 8 students planned and ran the events.
- All of our grade 6-8 students attended WE Day and a MY Voice Committee was set up for students who wanted to do more and set up events and activities to promote social justice at a local and global level.
- During the week of November 18th - 21st, the staff planned Addictions Awareness Week and Bullying Awareness Week activities for the whole school. The students learned about the dangers of several drugs and had discussions about how they could stay drug free. There was also a Caught You Caring Campaign where students could nominate other students. The students also looked at poetry written about bullying and had discussions about how to treat people kindly.
- The grade 5/6 class was a Roots Of Empathy classroom for baby Georgia
- As part of the guidance program, all of the students completed a "Keeping an Eye on Mistreatment" form once a term in order to see how the students are being treated by one another, and to work with those students who are mistreating others.
- Intramurals were run at nutrition breaks and new playground sports equipment was purchased in order to decrease behaviour problems on the playground and to focus on team building.
- In June, 9 Power for the Positive awards were awarded to students in the school who demonstrated kindness and promoted a safe and respectful school throughout the whole school year. The award winners were nominated by their peers and staff members.
