Assignment Saving Lives – Bursary Program

Be a student who makes a difference!

What is the Assignment Saving Lives Bursary Program, and how does it work?

To ensure patients receive the treatment they need during the summer months, Canadian Blood Services is inviting students enrolled in a postsecondary school to become blood donor recruiters.

To become eligible for bursaries, students are challenged to recruit potential blood donors between May 29th 2017 and September 2nd 2017.

This Contest is open to all residents of Manitoba, who are 16 years of age or older who:
o are presently enrolled in a secondary school in Canada or in a post-secondary education program in Canada;
and, fully complete, and submit the Canadian Blood Services Contest Registration form on or before July 31, 2017
o Canadian Blood Services employees and immediate family members are not eligible.
o For every 25 people registered, one ballot will be entered into a draw for bursaries
 Educational bursaries will be awarded in the Fall.

Why Get Involved? Here's a great opportunity to invest in your education by investing in the health of Canadians. Only 4% of eligible Canadians donate blood and we need your help to improve that In Manitoba we have over 2000 open blood donor appointments that need to be filled over the summer months

For more information, or to receive a registration package with full contest rules and regulations, please contact: Colleen Hrabí 204-789-1135 colleen.hrabí@blood.ca

Day 1

Our thoughts and imagination are the only real limits to our possibilities. ~ Orison Swett Marden

Announcements:

June 8 is World Oceans Day around the world. Our oceans need our help, each of us can help. Oceans generate 80% of our oxygen and give us food, medicine and jobs yet oceans are plugged with plastics and carbon. We have included the information below we have received

Cigarette Butts kill fish and diminish water quality:

Cigarette butts are not biodegradable.

Does your city or town provide enough cigarette butt containers and are local citizens aware of the long term damage a single cigarette butt can do?

San Diego State University completed a study regarding the long term negative effects of cigarette butts: **“The study revealed that a single cigarette butt soaked in a liter of water for one day resulted in vastly diminished water quality and the death of 50 percent of the fish therein.”**

Tops on garbage cans?

Does your city or town have tops on all garbage containers, especially those near the water? The wind blows styrofoam and plastics out of containers if there is no lid. Fish and birds eat the styrofoam and plastics which kills them. Local citizens and visitors may be trying to pick up and dispose of waste at your beaches and parks but if there is no top the wind or birds will spread the styrofoam and plastics around. If your city already has tops on all garbage cans please let us know and we will give you two stars on our website.

Every country is contributing to plastics in our oceans. All oceans are plugged with plastics. In Canada we can do better, we can reduce plastics in rivers and lakes all of which flow to an ocean.

Bottle Water is NOT regulated by any government department. Consumers really do not know what is in bottled water. It is safer to drink tap water. Put tap water in the fridge overnight for a tasty healthy beverage if they do not like the taste of fluoride or natural minerals. Carry tap water in a reusable bottle, one more step to reduce plastics and save money at the same time.

Education tips for local citizens:

Day 2

When you are content to be simply yourself and don't compare or compete, everybody will respect you. ~ Lao Tzu.

Announcements:

Twenty-eight WCI track athletes and six relay teams attended the MILK Provincials held in Winnipeg this past weekend. Several athletes recorded personal bests and in doing so propelled the Wildcats to their 10th consecutive Provincial AA banner and their first category banner in 11 years. That banner was presented to the junior girls, a result of accumulating 76.5 points throughout the competition. The cousin combination of Grace and Alex won gold and bronze medals in junior javelin. They then teamed up with Hanna and Kenzie to win the exciting 4 x 100 m relay. The junior girls' 4 x 400 m relay also struck gold. The team of Payton, Delaney, Alexis, and Madeline were outstanding in their performance. Juliette received a silver medal in the 200, and bronze in the 100. Madeline continued her winning ways by becoming the new school and provincial record holder in pentathlon event. She ran a gutsy 800 m race in the final event of the competition in capturing gold. We bid a grateful farewell and thank you to our veterans who graduate this year and who left an enduring mark on our team's history. Way to go all team members for another successful season. A team windup barbecue will take place on Wednesday at noon. The return of you jersey will get you a hotdog drink and desert.

Grade 11's are asked to please hand in all your Health assignments by Wednesday, June 14th. If you have to do Number 15, and still require password log-in information, please see Mrs. Broadfoot. If you have to do Number 17, please see Mr. Greg on Tuesday as he is away today.

Congratulations to Selena for taking third place at the Pageant at Lundar Fair this past weekend.
